Dear Sir:

We, Audrey Goddard, Paul J. Godowski, Christopher Grimaldi, Austin L. Gurney, and William I. Wood, citizens of the United States, hereby declare with respect to the Invention described and claimed in the above-captioned patent application that:

1. We made and conceived the Invention described and claimed in U.S. patent application Serial No. 10/063,523 filed in the United States of America on May 2, 2002 entitled "A POLYPEPTIDE UNDEREXPRESSED IN STOMACH TUMORS;"

2. We made and conceived this Invention while employed by Genentech, Inc., 1 DNA Way, South San Francisco, California 94080;

3. This Invention is related to the work we are employed to perform (or were employed to perform, if no longer employed by Genentech, Inc.) and was made within the scope of our employment duties; that the Invention was made during working hours and with the use of facilities, equipment, materials, funds, information and services of Genentech, Inc.;

4. To the best of our knowledge and belief, the Invention was not made or conceived in the course of, or in connection with, or under the terms of any contract, subcontract or arrangement entered into with or for the benefit of the United States Atomic Energy Commission or its successors: the Energy Research and Development Administration or the Department of Energy;

5. To the best of our knowledge and belief, the Invention was not made (conceived or first actually reduced to practice) under, nor is there any relationship of the invention to the performance of any work under any contract of the National Aeronautics and Space Administration;

6. The undersigned inventors declare further that all statements made herein of their own knowledge are true and that all statement made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that all such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Respectfully submitted,
